The place is ancient Britain. You are Artura, son of the Pendragon. Your quest: to rescue Nimue, beautiful apprentice to Merlyn the Mage, and keeper of the key of the ancient treasures lost long ago. She has been kidnapped by your evil half-sister Morgause, whose purpose, as only he knows and instructs. Fight your way through the maze that surrounds Morgause's stronghold. Battle the seemingly endless stream of her wizard and sorcerer minions, including supernatural warriors, giant spiders, even giant rats. Use your wits to defeat deadly traps devised by her cunning brain. Along the way, search for runes – three powerful spell stones will give you magical powers to help you to free Nimue and completely rout your foe!
